Glenn Fillmore

Glenn received his first camera at the age of five and a camera has been his constant companion throughout his life. He learned to experience the excitement of taking and then developing his own photographs in his Grandfather's darkroom in Wichita, Kansas with Granddad Fillmore at his side.

Eighteen years in the Navy as a submariner and then with Naval intelligence, exposed him to the much larger world beyond Wichita but delayed his full-time pursuit of the photographers art. The demands of running a computer company for twenty years in Washington, D.C. further delayed the full-time pursuit of his photographic vision. But when the opportunity arose to travel to Africa on a photographic safari in 1999, his life-long desire to pursue photography on a full-time basis was rekindled. He hasn't looked back.

Glenn's current work at Visions shows not only the beauty he has found in Oklahoma, but the beauty that finds him where ever he goes.

ARTIST'S STATEMENT

"It's all about the emotion"

Most photographers will tell you "It's all about the light." I strongly disagree.

Light is a tool I use to capture the emotion I feel when my eye finds the perfect natural image that takes my breath away. My goal as a photographer is to capture, preserve, and share that emotional experience.
