**Program – November 26**  
**Speaker Bio: Duane Angles**

My interest in photography began in 1974 while in the air force and stationed in Guam. I reinlisted while I was there and used some of the bonus to buy my first 35mm film camera, a Pentax Spotmatic II.

I took a correspondence course from the School of Modern Photography and attended several workshops and seminars. For the next 5 or 6 years I dabbled in landscape, portrait and wedding photography. I also worked some as a freelance photographer during a 17-month stay in Avon Park, Florida. After returning from a tour in Turkey in 1982, my interest in photography waned.

Then last year, a friend rekindled my interest and I purchased a Pentax D, a Sigma 28-80mm lens, and a 70-300mm lens. I have since sold the Pentax and purchased a Canon 20D, a Canon 75-300 IS, a Sigma 50-500mm, a Sigma 180mm macro and a 50mm lens.

All of my free time is now spent taking nature and landscape photos. I have upgraded my photography gear with a Canon 30D, Canon 300mm f/2.8L, Canon 70-200mm f/4L, Canon 50mm f/1.8 and Sigma 12-24mm lenses.

**WORDS TO LIVE BY**

Health is wealth, and it's tax free.

Live your life so you don't have to hide your diary .

There are three kinds of people: Those who make things happen, those who watch things happen, and those who say, "What happened?"

A hundred years from now it will not matter the kind of house you live in, what your bank account totals, or the kind of car you drive. But the world may be different because you were important in the life of a child.
