## New Competition Rules Summary

1. For the traditional Print and Projected Digital Image (PDI) competition category, image adjustments may use any process which results in a realistic looking image. Elements may be added to or removed from the image so long as the changes are not apparent. All elements of the competition image must be from original photographs captured by the contestant. HDR, focus stacking, and panorama stitching fall into this category unless obviously altered as described in the OPEN PDI category.

2. OPEN PDI. Starting in 2016 an "Open PDI" category is created and defined as: "Images for the Open PDI category must be processed in a way where alterations are very obvious. The goal is to start with a contestants' photograph that they then adjust with digital tools to create an image that could not have existed in reality." Both Color and Black and White PDI Images will be judged together in this category. Classes A through AAAA will be in effect with everyone initially starting in Class A and advancing per the normal process.

Check Red Book for official rules.

## 2016 Member Dues

**Individual \$30.00**  
**Family \$40.00**

A family membership is defined as all members residing in the same household, and will include children through the age of 18.
